---

## ACHIEVEMENTS

- Awarded second prize at the Troubleshoot DSA competition in JNTUH, showcasing exceptional problem-solving skills and honoured with a cash prize of 2000 INR [certificate](#)

---

## PROJECTS

### -> Real-time Chat Application - MERN STACK

Build a MERN stack chat app with real-time messaging using Socket.io, JWT authentication, and Bcrypt password hashing. Implemented React Router DOM for navigation, Socket.io-client for real-time communication, and Zustand for state management. Utilized React Hot Toast for notifications, React Icons for iconography, and Tailwind CSS with DaisyUI for styling. Developed with Vite for a fast development environment.  
Website Link : <https://chatappmern-xcmu.onrender.com/>

### -> WanderLust-FULLSTACK

WanderLust is a travel platform, Developed on Node.js with the Express.js framework, it leverages MongoDB for seamless data management, Cloudinary for image uploads, and is hosted on Render.com for reliable hosting. This is my inaugural full-stack project, taught me valuable lessons as I navigated challenges and setbacks, enhancing my skills along the way.  
Website Link : <https://wanderlust-0frx.onrender.com/>

### -> WeatherApp

Crafted a real-time Weather App using the "Weather by API-Ninjas" API on the "RapidAPI" platform. Empowers users to effortlessly access up-to-date weather data for any location. Designed with a user-friendly interface and cross-language compatibility, showcasing my skills in API integration and user-centric development.
